Near perfect weather for Helicopter Day!

**Many thanks to Sam Brown for cooking
& Jack Bernard for drinks on
Helicopter Day!**

Meeting Minutes October 3rd, 2013

The Monthly meeting of the LCRCC was held in the Zion Public Library.

Dick Hultz called the meeting to order at 7:17 with 21 members present. There was one guest present.

Secretary's Report:

The previous month's minutes were accepted as printed in the "Flypaper."

Treasurer's Report:

The treasurer's report was presented by Leonard Martin, and accepted as read.

Field Officer's Report:

Jack Bernard was absent, and there was no field report. Dick did tell us that Jack had painted all of the trim on the tractor shed.

Safety Officer's Report:

Chuck reported on an incident @ the picnic where a (non-Member) managed to get his hand caught in a spinning prop and did some severe damage. It was ruled as "Pilot error."

Dick brought up the issue of club safety and the importance of having a First Aid kit with you at all times when flying. Some discussion was had about the possibility of having a field kit available. But it was decided, (due to the fact that availability at the field to the kit would be difficult at best), it was better to provide your own personal kit. Many members spoke up and said that they, in fact, already have one.

Events Director's Report:

Bill Rago informed the group that everything is set up for the last event of the season (Helicopter Day)... and thanked Jay Imroth (and wife Kim) and Jack Bernard for providing the cooking and refreshments. Bill also went on to thank Doug for repairing and "Upgrading" our cooker.

Old Business:

Dick started off by reminding all about the upcoming "Last" event of the year at the field and mentioned Sam Brown will be cooking. He also reported that the Forest Preserve has graded our entrance road again.

Dick reported that Steve Yeaton is still looking for a person with computer skills to take over as Club webmaster. Gary Allen offered to take the job over in January.

The Porta-potty servicing will be discontinued as of November. We will keep the unit at the field but it will not be pumped/cleaned.

Dick reminded the group that we have a "New" ranger patrolling the field area and he has been showing up to check permits. He is also equipped with a current list of active permit holders. There was an issue, in that he was under the impression we needed vehicle stickers on our windows. Dick will look into that, as we have never needed to do this in the past years.

New Business:

There will be an Explorer Scout demo coming up on the 12th of Oct. Dick said he would send a notice via email two days prior to the event. If you want to participate you will need to contact him, either by phone, in person, or by email, no later than Friday, prior to the event. This will place your name in the drawing to win a \$25 gift certificate. Of course you have to show up and

participate also.

Next month we will be taking nominations for club officers...

The "I-Hobby" show has returned to Chicagoland after a brief respite in Cleveland.... But, it has been moved to the Schaumburg Convention Center (From Rosemont)... Dates of the show are Oct. 5-6.

Gary Allen reported that a Chicago R/C club brought aircraft to the Waukegan airshow and had a static display.

Show and Tell:

Chuck Smith brought in a set of "spring air" type (...knockoffs) retracts that he purchased at RCAerodyne. They look and perform like the namesake but only cost 19.95!!!

You can look them up online at:

<http://www.scaleflying.com/>

John Fisher brought in a modified rubber-powered foamie that he had purchased at Hobby Lobby (the craft store) for around \$3.

He then converted it using the parkzone 3 channel "Brick" and added a motor to make a great little indoor R/C Plane!!

New Members:

No New Members.

Gary Allen brought in a Guest (his neighbor) Paul Busch. He has a large Quadcopter and is looking for some help in setting it up and learning to fly it.

On a motion, second, and voice vote, the meeting was adjourned at 8:09pm.
