Despite the Happy Holiday sentiments expressed in the last Flypaper – At this point, Bah #@%@*&@**@ Humbug

A screenshot of a mobile weather application. At the top, the status bar shows Verizon service, signal strength, 7:38 AM, and 100% battery. Below the status bar, there is a settings gear icon, the location "RUSSELL, IL", a notification bell with a red "2", and a plus sign. The main weather display features an orange banner at the top that reads "WIND CHILL ADVISORY in effect". Below this, the current temperature is "-7°" in large white text. To the right of the temperature is a weather icon of a sun behind a cloud. Below the temperature, the text "MOSTLY CLOUDY" is displayed in large white letters. Underneath that, the high and low temperatures "14°/11°" are shown. At the bottom, there is a section for "FEELS LIKE" with a warning icon, showing a temperature of "-24°" and a right-pointing arrow.

Thanks to all the new officers and to those who volunteered to continue to serve.

RADIO CHATTER

Flypaper invites your contributions. If you get a new aircraft, or do something of which you are proud, or have a . . . uh . . .uh . . . "learning experience" with a plane or heli, or anything good or noteworthy to share, let Jack Cutrone know and he will write it up in the next Flypaper. His email and phone number appear in the masthead at the top.

December 11, 2016 Indoor Fly This writer was unable to participate and hence no pictures, but we are told that, as always, it was well attended and everyone had a good time (despite a crash or two.)

Old Friend Bill Lewis appears to have landed happily in Tennessee. He wrote to **Chuck Smith** who shared it with Flypaper:

"We painted and fixed up the house in Pleasant Prairie and sold it in one day. We camped at Bong Recreation in Kenosha County for a month and headed south pulling our camping trailer the wife following with the 3 cats. We are staying at my daughter-in-law's empty house up in the mountains in Kingston, Tennessee until about April.

Bill's new home

“We bought a double wide in Loudon Tennessee that's about 500 feet from the Tennessee River. It's on a 1/2 acre of land and has a front and back deck and breeze way to the garage. It's a smaller and simpler house which is what we were looking for. Our neighborhood is sort of like a simple resort area. Most neighbors get around here on golf carts. There's about 50 houses in our community. We are going through the entire house replacing carpeting with tile and complete paint and appliances.

“We usually start out the day with a visit to "Master Donuts" for coffee and my favorite, double chocolate chip donut, before going to the house. Everything seems to be going well with no unexpected surprises.

“Joined a flying club called ‘Harriman Eagles’. [Editor's Note – that didn't take long, not surprisingly.] There's about 50/60 members and a nice field about the size of your main run way. They all fly smaller planes and were amazed at the 330 Extra. They liked my style of flying and loved the prop rip so I really opened it up. They had an event in the fall and raised \$1000 and donated it all to the children's help fund. There are also clubs in Oak Ridge and Knoxville.

“Please keep in touch.

“Wishing You A Merry Christmas and A Happy New year

“Bill Lewis”

Happened to see a bumper sticker that seemed appropriate especially given the recent temperatures, winds and wind chills, (not to mention a mental review of the club membership.)

December 1, 2016 LCRCC Meeting Minutes

The monthly meeting of the Lake County Radio Control Club was held in the North Shore Bank, 5117 Green Bay Road, Kenosha. **Jay Imroth** called the meeting to order at 7:15pm with 15 members present.
