Now, that is SCALE

Chuck Smith's Beech 18

RADIO CHATTER

Flypaper invites your contributions. If you get a new aircraft, or do something of which you are proud, or have a . . . uh . . .uh . . . “learning experience” with a plane or heli, or anything good or noteworthy to share, let Jack Cutrone know and he will write it up in the next Flypaper. His email and phone number appear in the masthead at the top.

Jay Imroth stepping down as Vice President.

As many of you know, Jay has been one of the lucky ones, able to combine his passion for RC heli’s with a new vocation. Jay and Adam Andrews have using large drones to do commercial videography. They have even been called out on some search and rescue situations. Business has been increasing dramatically. Good for them, bad for us. Jay has been doing a lot of travelling for the business and will be unable to continue on as Vice President. A hearty thanks to Jay not only for his time in his tenure as Vice President but his unceasing willingness to step up and volunteer to do whatever the club needed, whether it be mowing or cooking at an event or, well, whatever was needed.

So that means the club is in the market for a Vice President. Hint, hint, hint – call President Gary Shakin.

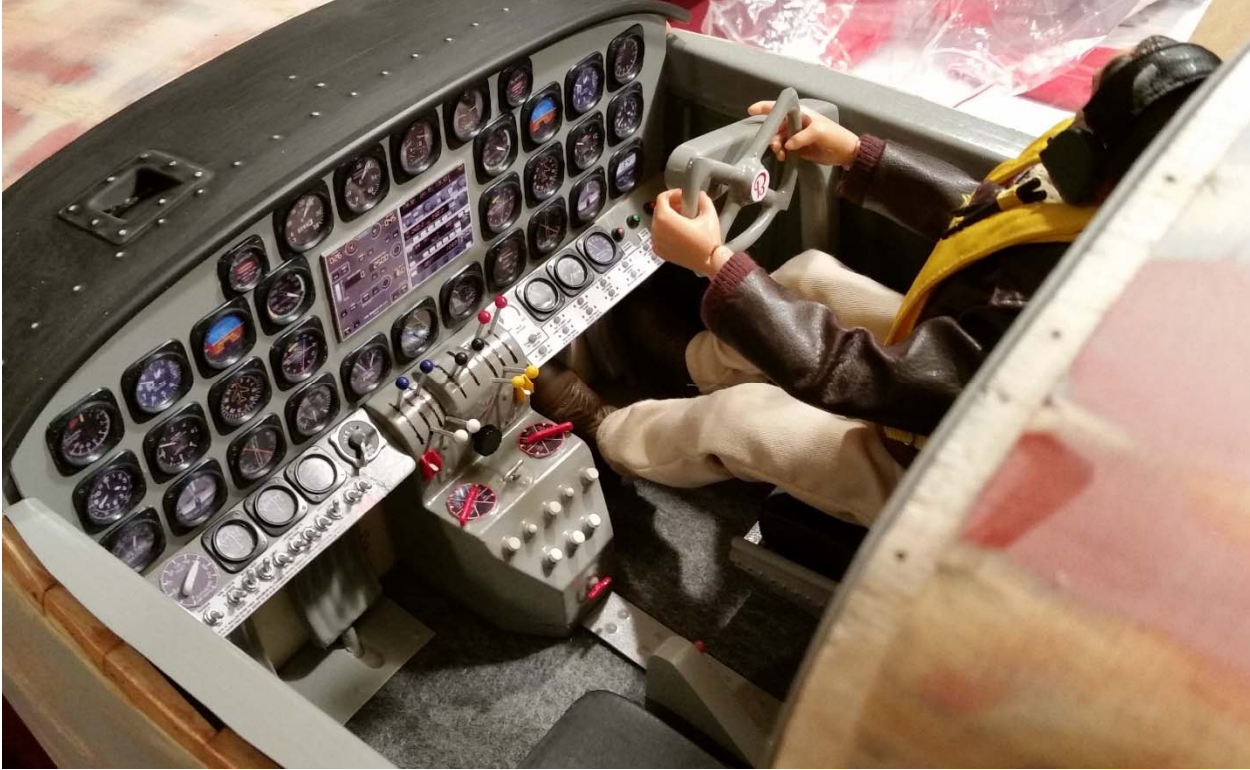

But they gave us the key???????

The scheduled March Lake County Radio Control Club meeting was cancelled due to circumstances beyond our control. It seems that the bank lost one of its tenants and changed the outside lock. But when **Jack Cutrone** went and picked up the key the day of the meeting, they only gave him the key for the inside door to the meeting room. When members showed up for the meeting, we were unable to get inside the building. The April meeting will be held as scheduled.

More pictures of the Beech 18 cockpit. Chuck Smith sent Flypaper some pictures of the scale Beech twin he has been working on. This writer has spent more than a few hours flying right seat in a Beech 18 and he felt like he had stepped into the cockpit when he saw them. Can't wait to see the rest of the plane which will be featured in a future issue.

February 5, 2017 Indoor Fly

Bill Brown, Mike and Dave Taylor setting up Bill's new Eflite Convergence before the indoor fly.

Dan Neuen flying his UMX Sport Cub

Bill Brown flying his Convergence. (Hovering nose in)

Keith Bradley watching Bill flying the Convergence: "Let me get this straight, it hovers like a heli but then flies forward like a plane???? How does it do that?"

March 2, 2017
LCRCC Meeting Minutes

The monthly meeting of the Lake County Radio Control Club was **not** held in the North Shore Bank, 5117 Green Bay Road, Kenosha, so, no minutes.
